

## VALOX<sup>TM</sup> FR RESIN VC130

## DESCRIPTION

VALOX VC130 compound is based on Polybutylene Terephthalate (PBT) resin containing 30% carbon fiber. Added features of this grade include: Electrically Conductive, Flame Retardant.

| GENERAL INFORMATION   |  |
|-----------------------|--|
| Features              | Flame Retardant, Electrically Conductive, Carbon fiber filled, High stiffness/Strength |
| Fillers               | Carbon Fiber   |
| Polymer Types         | Polybutylene Terephthalate (PBT)   |
| Processing Techniques | Injection Molding  |
|                       |  |

| INDUSTRY                   | SUB INDUSTRY          |
|----------------------------|-----------------------|
| Electrical and Electronics | Electronic Components |
| Industrial                 | Material Handling     |

## TYPICAL PROPERTY VALUES

Revision 20231109

| PROPERTIES  | TYPICAL VALUES       | UNITS | TEST METHODS         |
|---|----------------------|-------|----------------------|
| MECHANICAL <sup>(1)</sup>                           |                      |       |                      |
| Tensile Stress, yield                               | 166                  | MPa   | SABIC - Japan Method |
| Tensile Strain, break                               | 3                    | %     | SABIC - Japan Method |
| Flexural Stress                                     | 238                  | MPa   | ASTM D790            |
| Flexural Modulus                                    | 17460                | MPa   | ASTM D790            |
| IMPACT <sup>(1)</sup>                               |                      |       |                      |
| Izod Impact, notched, 23°C                          | 76                   | J/m   | ASTM D256            |
| THERMAL <sup>(1)</sup>                              |                      |       |                      |
| HDT, 0.45 MPa, 3.2 mm, unannealed                   | 205                  | °C    | ASTM D648            |
| CTE, -30°C to 30°C                                  | 5.00E-05             | 1/°C  | ТМА                  |
| Relative Temp Index, Elec <sup>(2)</sup>            | 75                   | °C    | UL 746B              |

CHEMISTRY THAT MATTERS

| PROPERTIES                          | TYPICAL VALUES | UNITS | TEST METHODS |
|-------------------------------------|----------------|-------|--------------|
| Drying Time                         | 2 – 4          | Hrs   |              |
| Maximum Moisture Content            | 0.02           | %     |              |
| Melt Temperature                    | 235 – 255      | °C    |              |
| Nozzle Temperature                  | 230 – 250      | °C    |              |
| Front - Zone 3 Temperature          | 235 – 255      | °C    |              |
| Middle - Zone 2 Temperature         | 230 – 250      | °C    |              |
| Rear - Zone 1 Temperature           | 225 – 245      | °C    |              |
| Mold Temperature                    | 50 – 100       | °C    |              |
| Back pressure (Plastic Pressure)    | 3 – 8          | MPa   |              |
| Screw speed (Circumferential speed) | 0.1 – 0.2      | m / s |              |
| Shot to Cylinder Size               | 30 - 70        | %     |              |

(1) The information stated on Technical Datasheets should be used as indicative only for material selection purposes and not be utilized as specification or used for part or tool design.

(2) UL Ratings shown on the technical datasheet might not cover the full range of thicknesses and colors. For details, please see the UL Yellow Card.

(3) Measurements made from laboratory test coupon. Actual shrinkage may vary outside of range due to differences in processing conditions, equipment, part geometry and tool design. It is recommended that mold shrinkage studies be performed with surrogate or legacy tooling prior to cutting tools for new molded article.

(4) Injection Molding parameters are only mentioned as general guidelines. These may not apply or may need adjustment in specific situations such as low shot sizes, large part molding, thin wall molding and gas-assist molding.

## DISCLAIMER

Any sale by SABIC, its subsidiaries and affiliates (each a "seller"), is made exclusively under seller's standard conditions of sale (available upon request) unless agreed otherwise in writing and signed on behalf of the seller.
