

NORYL™ RESINS: THE SMART CHOICE FOR FOOD-CONTACT APPLICATIONS

ENGINEERED FOR FOOD-CONTACT SAFETY. PRICED FOR COMPETITIVENESS.

When the new EU 2024/3190 food-contact regulation demands stricter compliance, you don't need to jump to higher priced, over-engineered materials like PPSU. NORYL resins help to deliver the performance you need — BPA-free, BPS-free, hydrolytically stable, and suited for hot-water and steam environments — at a fraction of the cost, giving you regulatory confidence and competitive advantage.

WHERE NORYL RESINS EXCEL

A smart fit for food-contact applications

not exposed to hot grease or oil, including:

- VENDING & BEVERAGE SYSTEMS: vending machines, dispensers, water reservoirs, mixing chambers, drip trays
- FLUID HANDLING & FILTRATION: pump housings, valves, filter elements, food-processing machinery, filtration for wines, beers, juices, tea, flour, and pharmaceuticals
- APPLIANCES & COOKWARE: coffee machines, blenders, juicers, bread makers, baby-bottle machines, grinders, dishwashers, air fryers, ovens, steam cleaners, refrigerators, and bakeware handles
- PACKAGING: Pouring closures, bottle caps for spirits and liquors
- FOOD SERVICE & TABLEWARE: Plates, cups, utensils, catering tableware

NORYL™ RESINS PORTFOLIO FOR FOOD-CONTACT APPLICATIONS

NORYL grades provide a balanced mix of heat resistance, mechanical strength, fatigue performance, and processability; with options ranging from **unfilled** to **glass-reinforced** formulations.

NORYL RESINS

UNFILLED

OPAQUE
Coffee machines, food processors

WM300G

NEW

GLASS FILLED

20% GF Balanced stiffness Flow.
Appliance components.

FE1520PW

30% GF Impact modified, Excellent
fatigue. Bakeware handles, Machine
parts.

WM330G

NEW

40% GF Impact resistant, dishwasher
durable. Tableware, kitchen
accessories.

FE1740PW
