

## LNPTM COLORCOMPTM COMPOUND D10008PR

## **DESCRIPTION**

LNP COLORCOMP D10008PR compound is based on Polycarbonate (PC) resin. Added features of this grade include: Flame Retardant, Exceptional Processing, Mold Release.

| GENERAL INFORMATION   |   |  |
|-----------------------|---|--|
| Features              | res Flame Retardant, High Flow, Aesthetics/Visual effects, Non CI/Br flame retardant, Enhanced mold rele<br>No PFAS intentionally added |  |
| Fillers               | Unreinforced  |  |
| Polymer Types         | Polycarbonate (PC)  |  |
| Processing Techniques | Injection Molding   |  |

| INDUSTRY                   | SUB INDUSTRY  |
|----------------------------|---|
| Automotive                 | Automotive Interiors  |
| Consumer                   | Home Decoration, Sport/Leisure, Personal Accessory, Home Appliances, Commercial Appliance |
| Electrical and Electronics | Mobile Phone - Computer - Tablets   |

## **TYPICAL PROPERTY VALUES**

Revision 20231109

| PROPERTIES  | TYPICAL VALUES | UNITS    | TEST METHODS         |
|---|----------------|----------|----------------------|
| MECHANICAL (1)                                      |                |          |                      |
| Tensile Stress, yld, Type I, 50 mm/min              | 62             | MPa      | ASTM D638            |
| Tensile Stress, brk, Type I, 50 mm/min              | 65             | MPa      | ASTM D638            |
| Tensile Strain, brk, Type I, 50 mm/min              | 120            | %        | ASTM D638            |
|   | 93             | MPa      | ASTM D638  ASTM D790 |
| Flexural Stress, yld, 1.3 mm/min, 50 mm span        |                |          |                      |
| Flexural Modulus, 1.3 mm/min, 50 mm span            | 2300           | MPa      | ASTM D790            |
| IMPACT (1)  |                |          |                      |
| Izod Impact, notched, 23°C                          | 640            | J/m      | ASTM D256            |
| Tensile Impact Strength, Type S                     | 378            | kJ/m²    | ASTM D1822           |
| Instrumented Dart Impact Energy @ peak, 23°C        | 54             | J        | ASTM D3763           |
| THERMAL (1)   |                |          |                      |
| HDT, 1.82 MPa, 3.2mm, unannealed                    | 126            | °C       | ASTM D648            |
| Relative Temp Index, Elec <sup>(2)</sup>            | 130            | °C       | UL 746B              |
| Relative Temp Index, Mech w/impact (2)              | 130            | °C       | UL 746B              |
| Relative Temp Index, Mech w/o impact <sup>(2)</sup> | 130            | °C       | UL 746B              |
| PHYSICAL (1)  |                |          |                      |
| Specific Gravity                                    | 1.2            | -        | ASTM D792            |
| Mold Shrinkage, flow, 3.2 mm <sup>(3)</sup>         | 0.5 – 0.7      | %        | SABIC method         |
| Melt Flow Rate, 300°C/1.2 kgf                       | 25             | g/10 min | ASTM D1238           |
| OPTICAL (1)   |                |          |                      |
| Light Transmission, 2.54 mm                         | 88             | %        | ASTM D1003           |
| Haze, 2.54 mm                                       | 1              | %        | ASTM D1003           |

| Screw Speed                             | 40 – 70           | rpm      |              |
| Shot to Cylinder Size                   | 40 – 60           | %        |              |
| Vent Depth                              | 0.025 - 0.076     | mm       |              |

- (1) The information stated on Technical Datasheets should be used as indicative only for material selection purposes and not be utilized as specification or used for part or tool design.
- (2) UL Ratings shown on the technical datasheet might not cover the full range of thicknesses and colors. For details, please see the UL Yellow Card.
- (3) Measurements made from laboratory test coupon. Actual shrinkage may vary outside of range due to differences in processing conditions, equipment, part geometry and tool design. It is recommended that mold shrinkage studies be performed with surrogate or legacy tooling prior to cutting tools for new molded article.
- (4) Injection Molding parameters are only mentioned as general guidelines. These may not apply or may need adjustment in specific situations such as low shot sizes, large part molding, thin wall molding and gas-assist molding.
